Dr. Ann will share the results of her most recent study in her newest book, ***Ultimate Deception: Learning the Truth About Gender-Affirming Care.***

Dr. Ann's research exposes the harm caused when Gender Affirmation is forced on **vulnerable children** and lays out the path to personal destruction down which this ideology will lead.

She will also share her experience of how compassionate understanding and patient love can bring healing and restoration to relationships broken by the pervasive gender ideology that **dominates** so much of our culture.
